2020 - 2023

Asset Management Engineer

Fourth Partner Energy

- Managed the operation of solar plants to ensure optimal performance and reliability.
- Developed and maintained relationships with vendors, facilitating effective service and support.
- Oversaw asset management processes to maximize efficiency and minimize operational downtime.
- Collaborated with clients to understand their needs and deliver tailored energy solutions.

2019 - 2020

Engineer

AMPLUS SOLAR

- Operated and maintained rooftop solar plants, ensuring optimal performance and efficiency.
- Managed asset inventory and conducted regular inspections to uphold safety and operational standards.
- Implemented maintenance schedules and protocols, enhancing the longevity and productivity of solar assets.
- Collaborated with cross-functional teams to identify and resolve technical issues, improving overall project outcomes.

2016 - 2019

Engineer

Ujaas Energy

- Managed operation and maintenance of solar plants, ensuring optimal performance for both rooftop and ground-mounted systems.
- Conducted regular inspections and troubleshooting to identify and resolve issues, enhancing system reliability and efficiency.
- Coordinated with cross-functional teams to implement preventive maintenance schedules, minimizing downtime and improving overall output.
- Analyzed performance data and generated reports, contributing to informed decision-making for system enhancements and upgrades.

PROJECTS

B2B Real Estate Inventory Platform

570 Days

- Developed a B2B Real Estate Inventory Platform for a leading Real Estate Brokerage Firm. - Established direct connections between brokers and builders, streamlining inventory management. - Facilitated improved communication and collaboration within the real estate industry. - Enhanced user experience by integrating features tailored for efficient broker-builder interactions.
